

SETTING UP THE CONNECTIVITY KIT

Return

What do you want to do?

 Start a new installation

 Connect to an existing installation

 Finish the installation carried out by my professional

Return

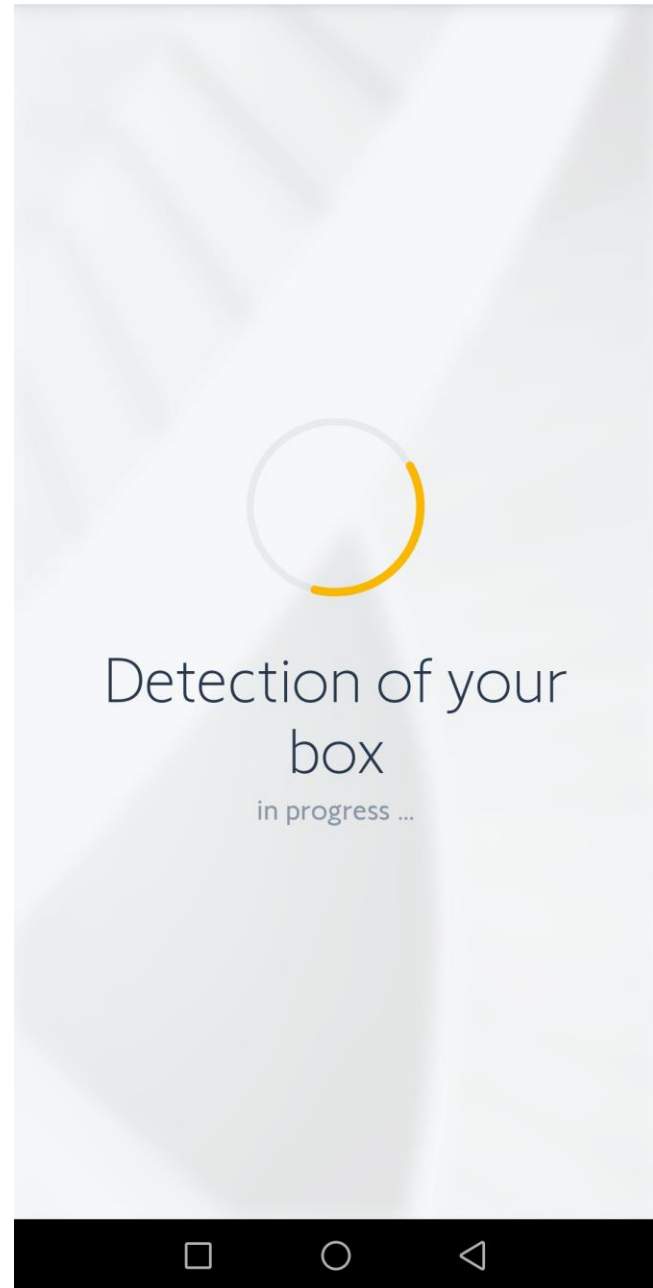

Connect your TaHoma to a USB adapter (not included), or to a USB port (always powered). The top light will flash blue.

You will connect via Bluetooth for the configuration.

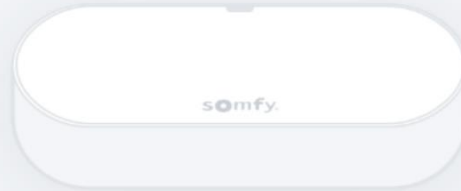

The LED flashes blue

The LED is not blinking blue

Box configured!

During the next steps, your box may be updated: the light may flash.

What control point do you use for your product?

Somfy Smooove

Remote control

What is the brand of your product?

Two buttons are shown side-by-side. The left button is white with the 'somfy' logo in yellow. The right button is white with a red square containing the word 'VELUX' in white capital letters.

Take the remote control and scan the QR code on the back of it

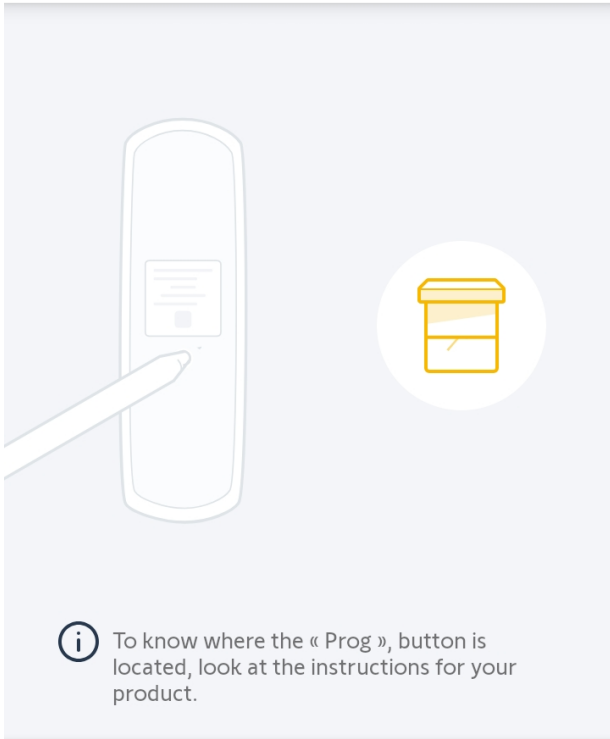

The screen shows a black area with white corner brackets for scanning. A small white circle with a lightning bolt icon is in the bottom left. Below the scanner is a white rounded rectangle containing the text 'QR code missing or illegible?'.

Look at the label and select the icon shown

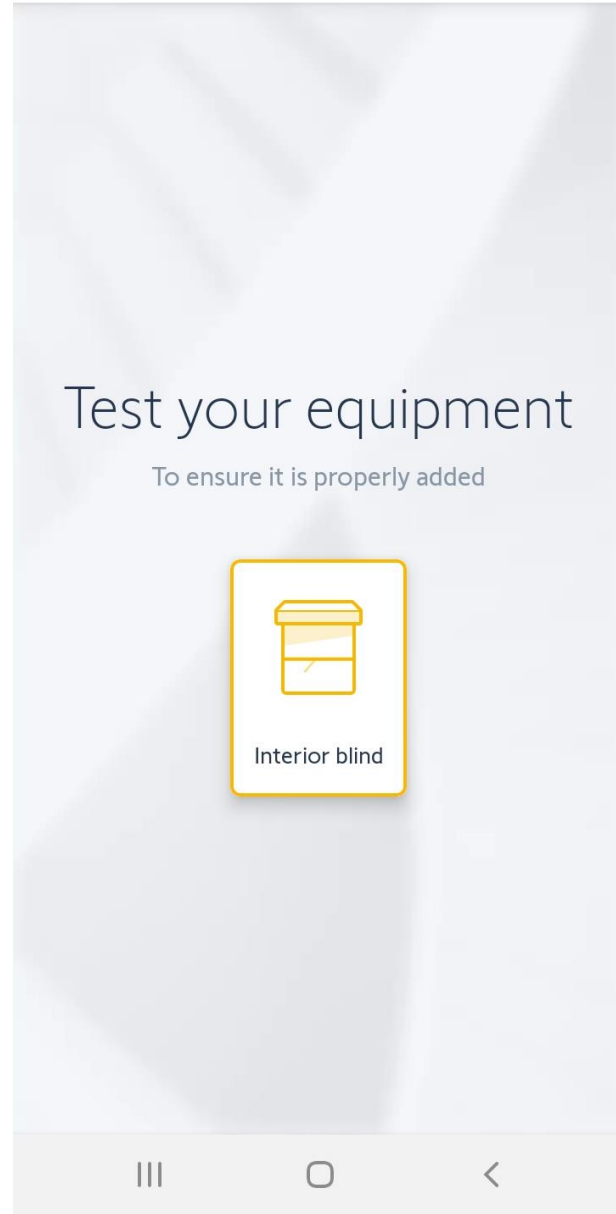

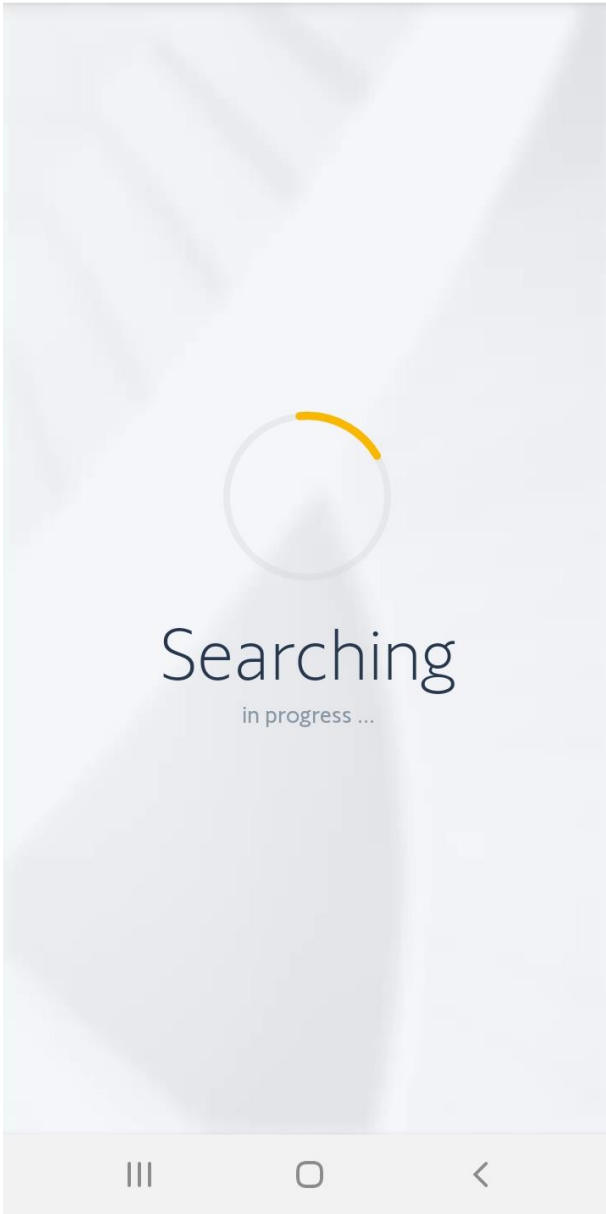

Two icons are shown in white boxes: 'RTS Radio Technology Somfy' and 'io homecontrol'. Below them is a white box with the text 'There is no more label'. At the bottom, an information icon is followed by the text 'If you have another icon on the product, it is not compatible'.

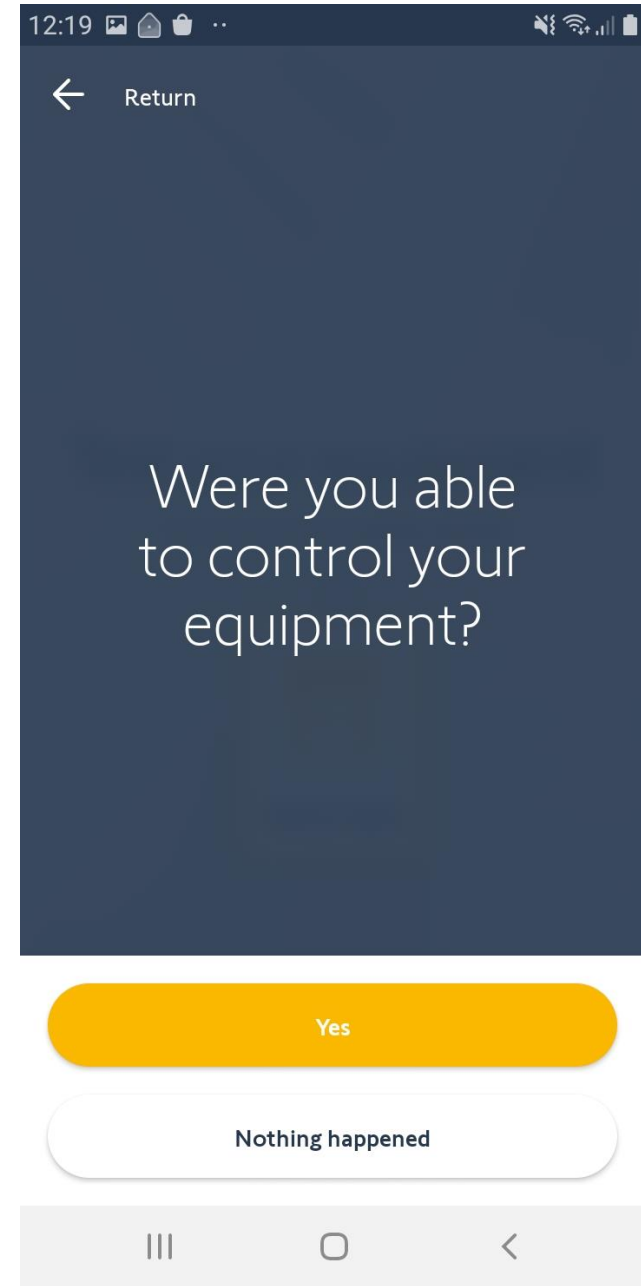

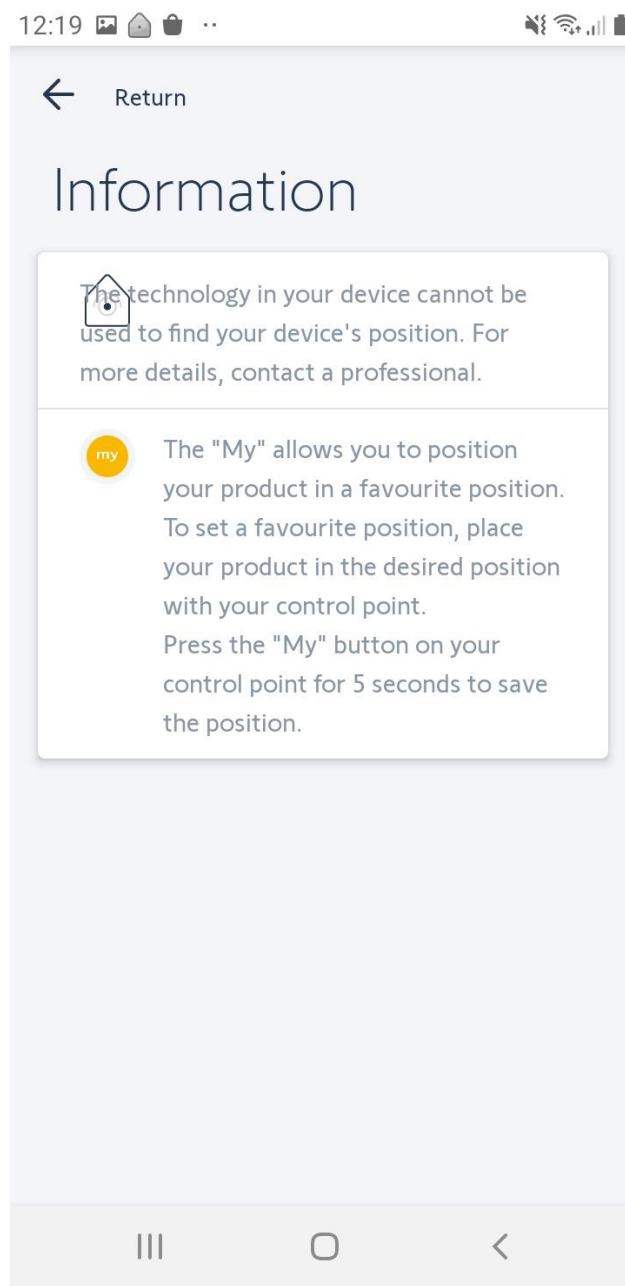

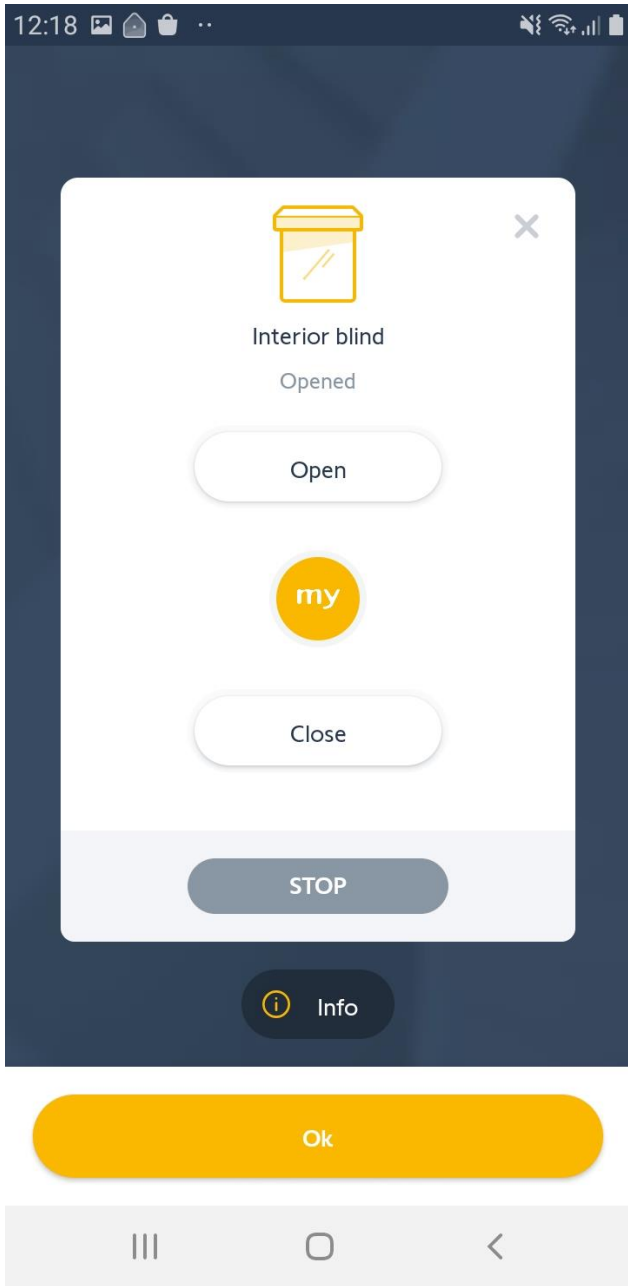

← Return

Press the button on the back of the remote control until your product reacts
